A LBANY FEMALE ACADEMY.—The next quarter will commence on the first Monday of September. This institution (founded in the year lel4, and occupying a spacious and elegant edic, erected especially for its accommodation,) comprises six departments; the whole under the charge of the professors and teachers, besides four who have charge of the ornamental branches, and subject to monthly visitations by committees of the

sland practical, and to embrace all the various manches of a complete female education.

The institution is furnished with maps, charts, lobes, models, chemical and philosophical apparas; an orrery, with numerous working models and agrams for illustrating the science of astronomy, osstituting an apparatus for this purpose not sursued, it is believed, by that of any similar institution in the country; and an extensive library, conjuing about six thousand volumes; in addition to beinch in each of the three lower departments is a

One important feature in the arrangement of the sademy, is the division of labor among many instructors, so that the attention of each is devoted to a few studies, instead of being eccupied with the whole belonging to a department; and it is to this that the trustees ascribe, in a great measure, the reputation which the institution has derived from the superior scholarship of its pupils.

The department of composition continues, as here-

GREATEST WONDER OF THE AGE.

ATENT GALVANIC RING, AND MAGNETIC FLUID.—These wonderful Rings, and the Galvanic Fluid, have created a great sensation throughout Europe, and are attracting crowds to see them, both in New York and Boston. They care with astonishing rapidity rheumatism, gout, tic-doloreux, fits, cramp, sick headache, indigestion, paralysis, stiff joints, general debility, deficiency of nervous energy, and all nervous disorders. They produce all the beneficial results of the ordinary galvanic battery, or electric and magnetic machines, without the injurious shocks which always accompany their application. The secret of preparing the Ring was discovered by Professor Harmance Christie, of London, in October last, and they have been recently introduced into this country by Dr. A. Christie, who warns the American public, from the beginning, to beware of spurious initiations. To guard against fraud, he will appoint but one agency in each of the cities of the United States.

authma, pain in the side and breast, whoopings, cough, croup, and all diseases of the liver and lungs, broken constitution, &c.

THE above is the original and only genuine preparation from this valuable tree, and has won its way to public favor by its unparalleled success in curing all diseases of the lungs, notwithstanding the many articles prepared by persons who have no knowledge of the science of medicine, in theory or practice; and some, mere readily to decive the unsuspecting, use a part of the name of the original preparation, such as "balasam of wild cherry," "Phalam of wild cherry," "balam of wild cherry and camfrey," &c.—all sprung up with a mercenary view, after Dr. Swayne's compound, sirup of wild cherry had won a reputation in the heating art never to be forgotten by many a once cheerless fireside. Therefore the public should be on their guard, and purchase none but the original preparation, which is daily performing such astonishing cures in pulmonary complaints, after all remedies had failed, and the patients given up as hopeless. Thousands of certificates might be published, which would astonish credulity itself; but it is deemed unnecessary. Below we publish a few of the names of persons who have been cured by this wonderful effects of the many of the names of persons who have been cured by this wonderful effects of the many of the names of persons who have been cured by this wonderful effects of the many of the many of the names of persons who have been cured by this wonderful effects of the many of the names of persons who have been cured by this wonderful effects of the many of the names of the names of the name of

an agent of the Post Office Department with the mails, or he may induce a preference to be given in favor of a bid equal in other respects, over a bid not containing it.

Indentures of contract are to be executed by the accepted bidder and by his sureties, by or before the first day of May next. It is to provide, among other things, that the pay of the trip is to be forfeited when the trip is not performed, and a due proportion when a grade of service is rendered inferior to that specified in the contract; and that fines may be imposed, unless the delinquency be satisfactorily explained in due time, for failing to take from, or to deliver into, the post office at the port of landing, the mail belonging thereto, or any part of it, to be wet, injured, lost, or destroyed; for conveying it in a place or manner that exposes it to depredation, loss, or injury; for refusing, after demand made, to convey a mail by any additional steam ship or vessel run by the contractor on the route, over and above the specified number of trips in the contract, and for not arriving at the time set; also for transmitting intelligence, or furnishing the means of transmitting intelligence, in advance of the mail. The Postmaster General may annul the contract without the consent of the Postmaster General may annul the contract without the consent of the Postmaster General may annul the contract without the consent of the Postmaster General of the proposals.

The Postmaster General may alter the contract, and alter the schedule, he allowing a pro rata increase of compensation, within the restrictions imposed by law, for the additional service required, or for the increased speed, if the employment of additional stock or carriers is rendered necessary; but the contractor may, in such case, relinquish the contract, on timely notice, if he prefers it to the change. The Postmaster General may also discontinue or curtail the service, he allowing one month's extra pay on the amount dispensed with; and the contract 'may at any time be terminated

NUMBER 182

The bid should be sent under seal to the First Assistant Postmaster General, and the words "Mail proposals—Atlantic routes," or "Gulf of Mexico routes," as the case may be, written on the face of the letter, and should be despatched in time to be received by or before the 15th day of January next, which will be the last day for receiving proposals under this advertisement.

The acceptance or non-acceptance of the bids will be determined by the 31st day of January next.

The service is to commence with the trip nearest to the first day of May, 1846; but if the bidder shall not consider himself able or prepared to put the service in operation on or about that day, he will specify the day of commencement in his proposals. Offers to commence service at an earlier date will be considered. The contract term will expire with the voyage ending on or about the 30th day of June, 1850.
